

July 1, 2016

We are providing this letter in connection with the Service Organization Control 1, Type II Report (the "Report"), prepared for ViaWest, Inc. ("we", "us", "our") and covering the controls and procedures identified therein. The Report covers the examination period of October 1, 2014 through September 30, 2015 and relates to our data centers located in Denver, Colorado; Salt Lake City, Utah; Hillsboro, Oregon; Las Vegas, Nevada; Chaska, Minnesota; Phoenix, Arizona; and Austin, Richardson, and Dallas Texas. To the best of our knowledge, there have not been any significant changes in the internal controls described in the Report since the date it was issued, nor are there any material weaknesses in such internal controls and procedures that require any corrective action.

Bradley D. Hart  
Director of Compliance
